birth-death (bd)

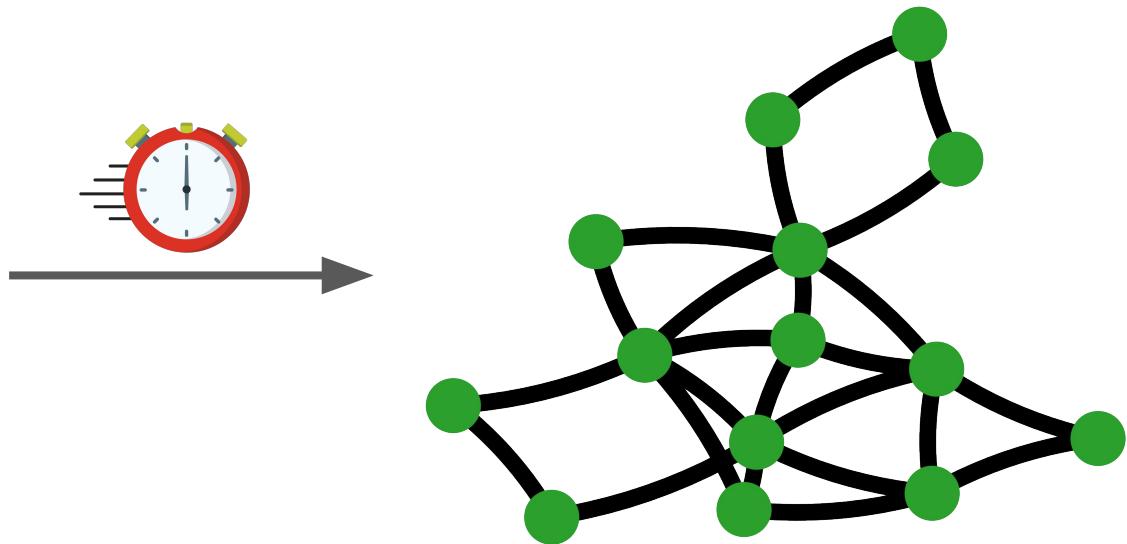

death-birth (db)

Heterogeneous

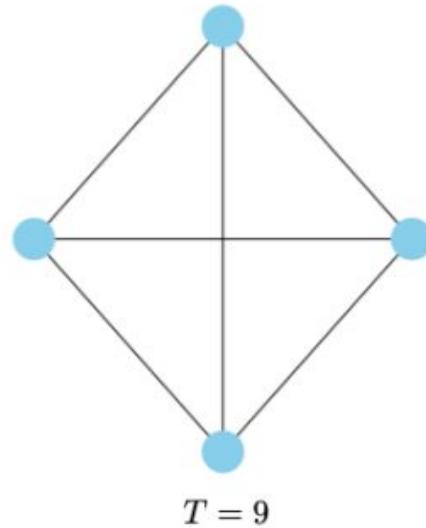

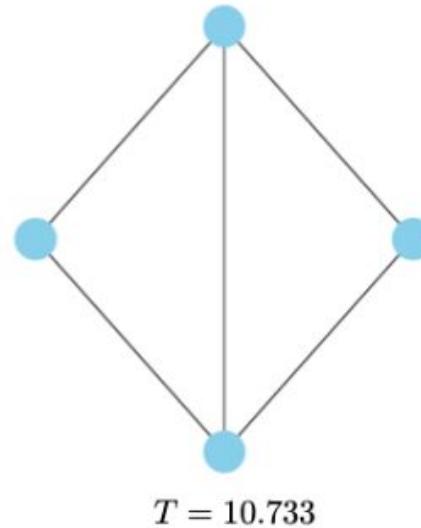

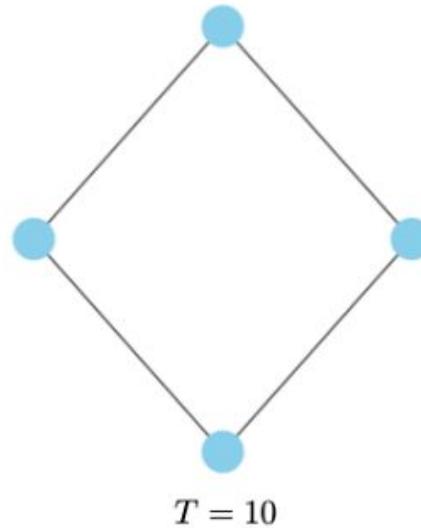

Homogeneous

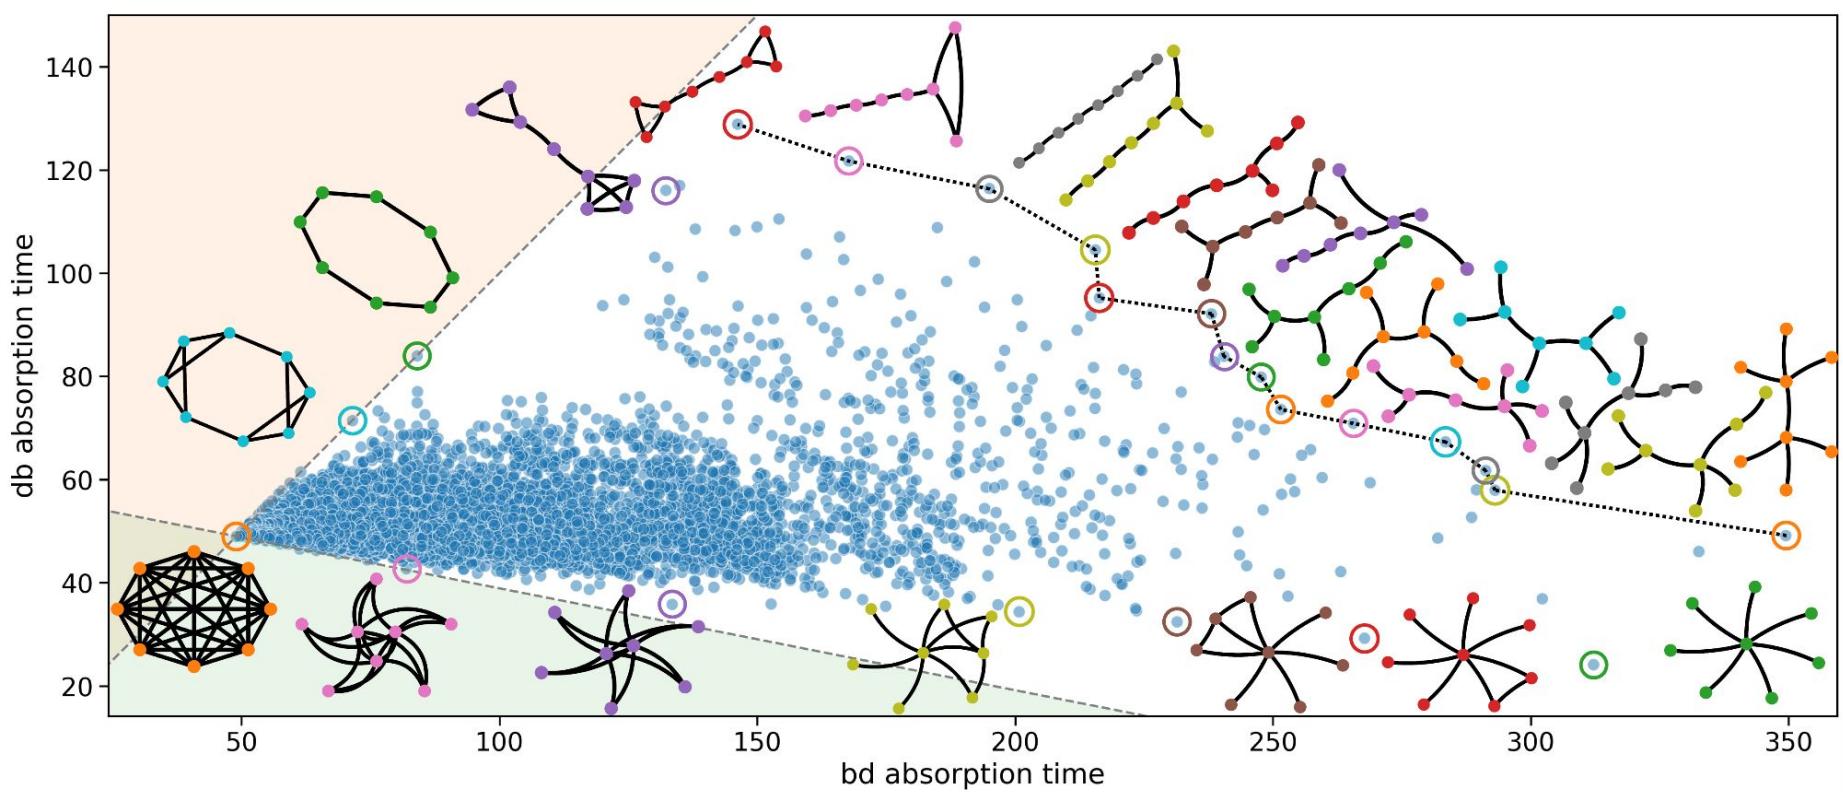

Interactive simulation

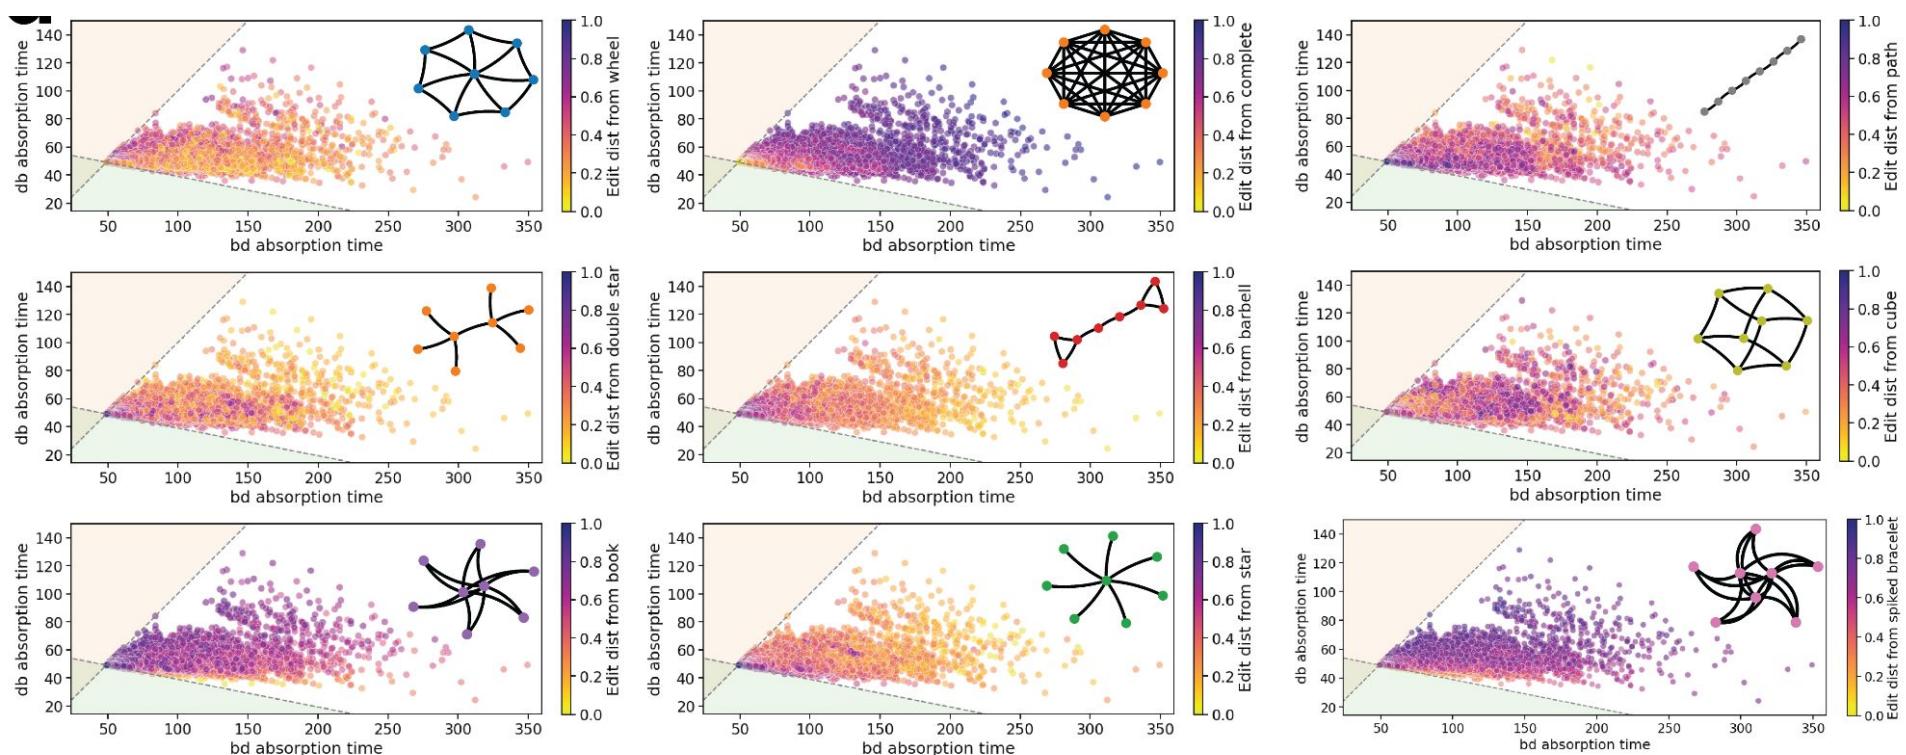

Removing edges, N=4, birth-death

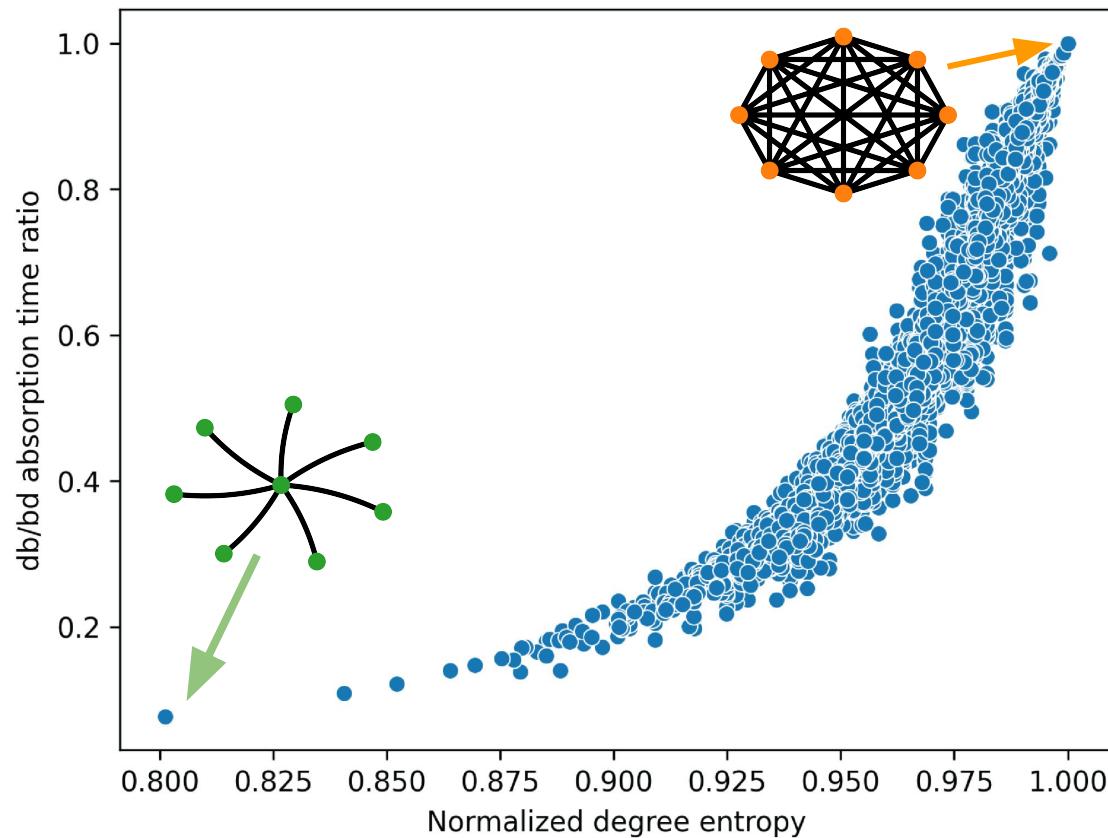

db vs bd, N=8

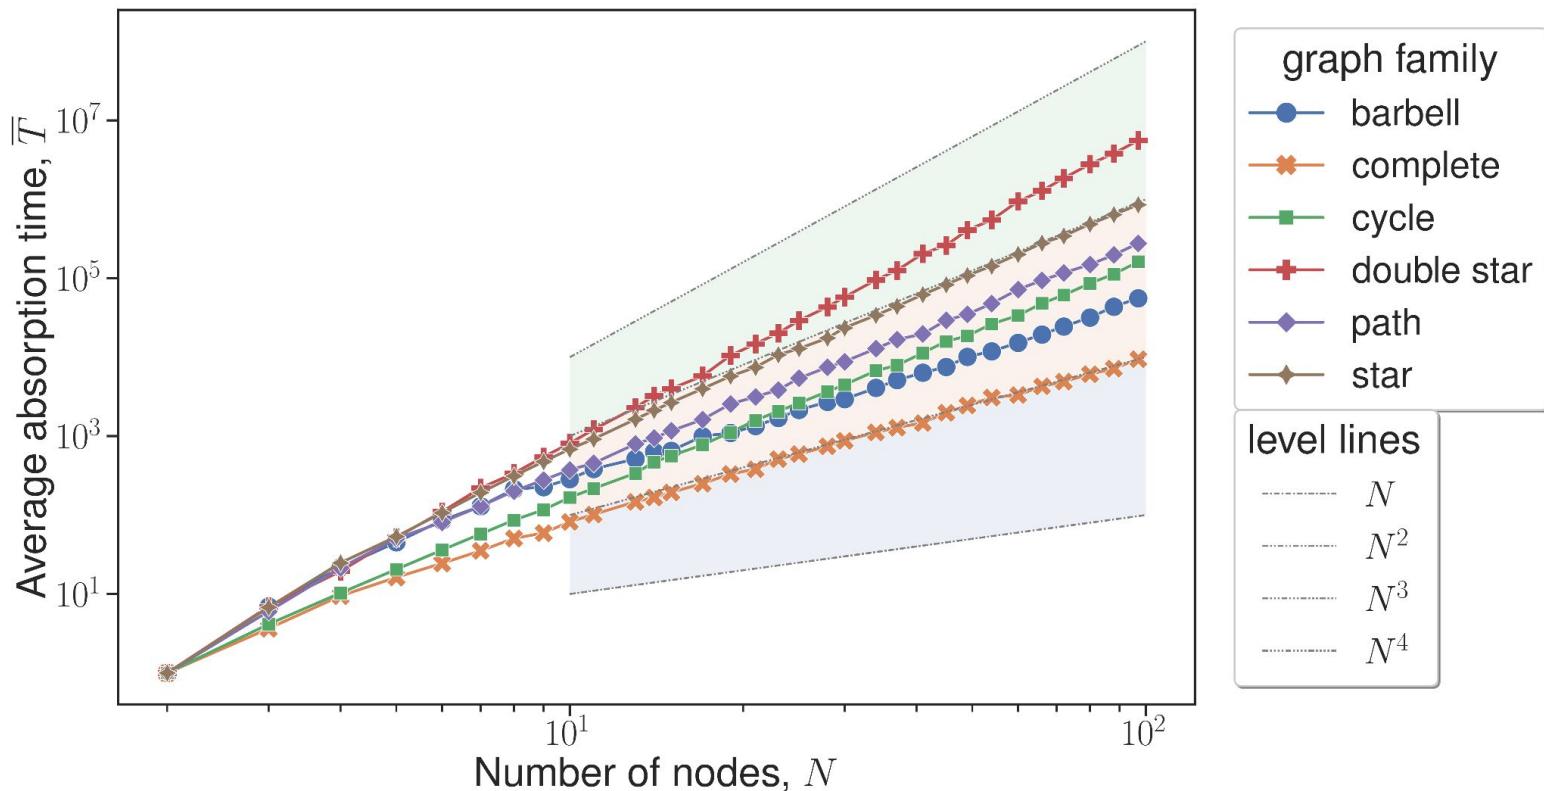

db vs bd, edit distance, N=8

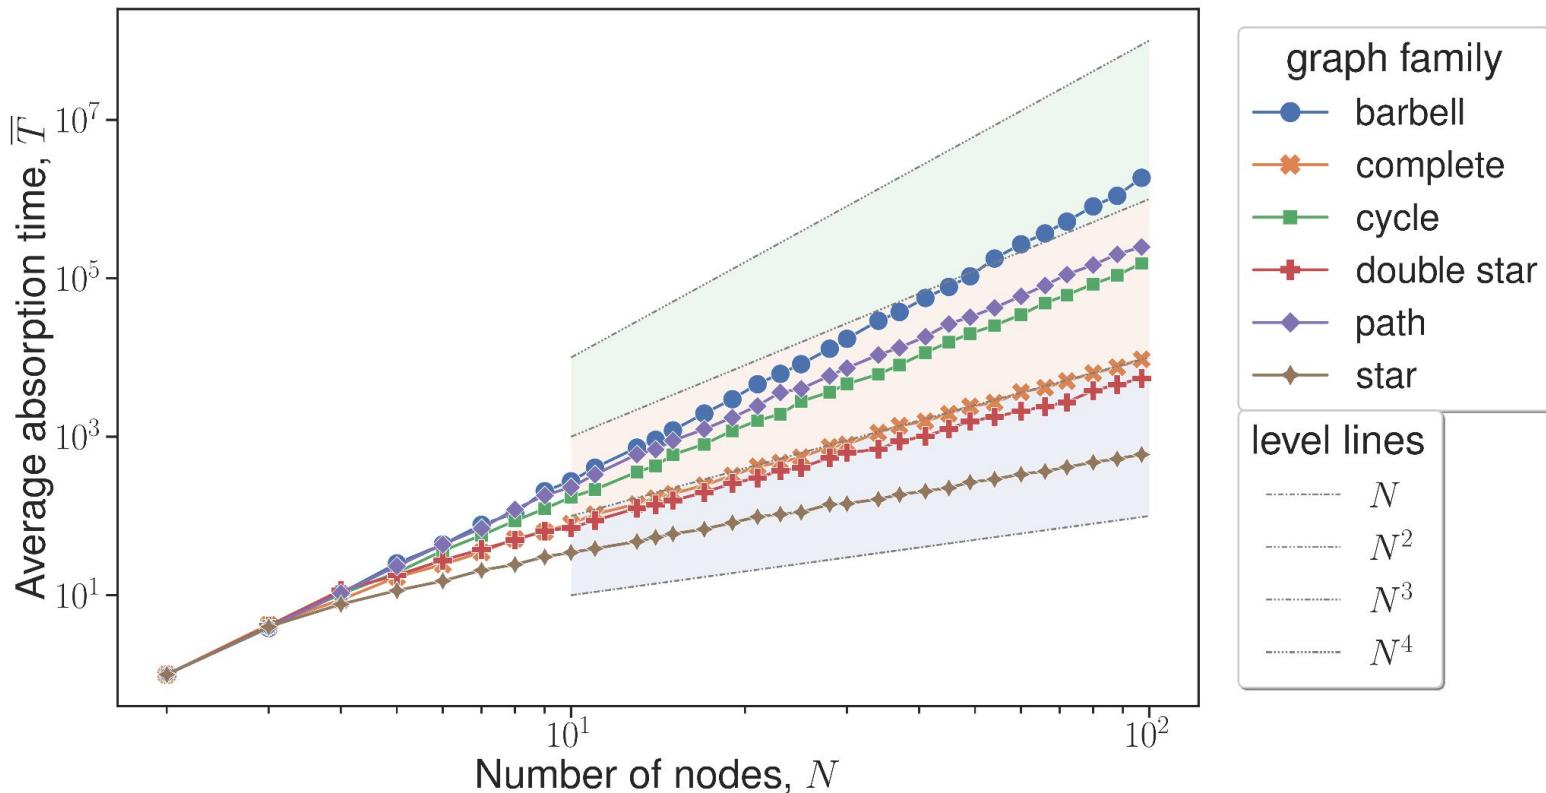

db/bd vs degree entropy, N=8

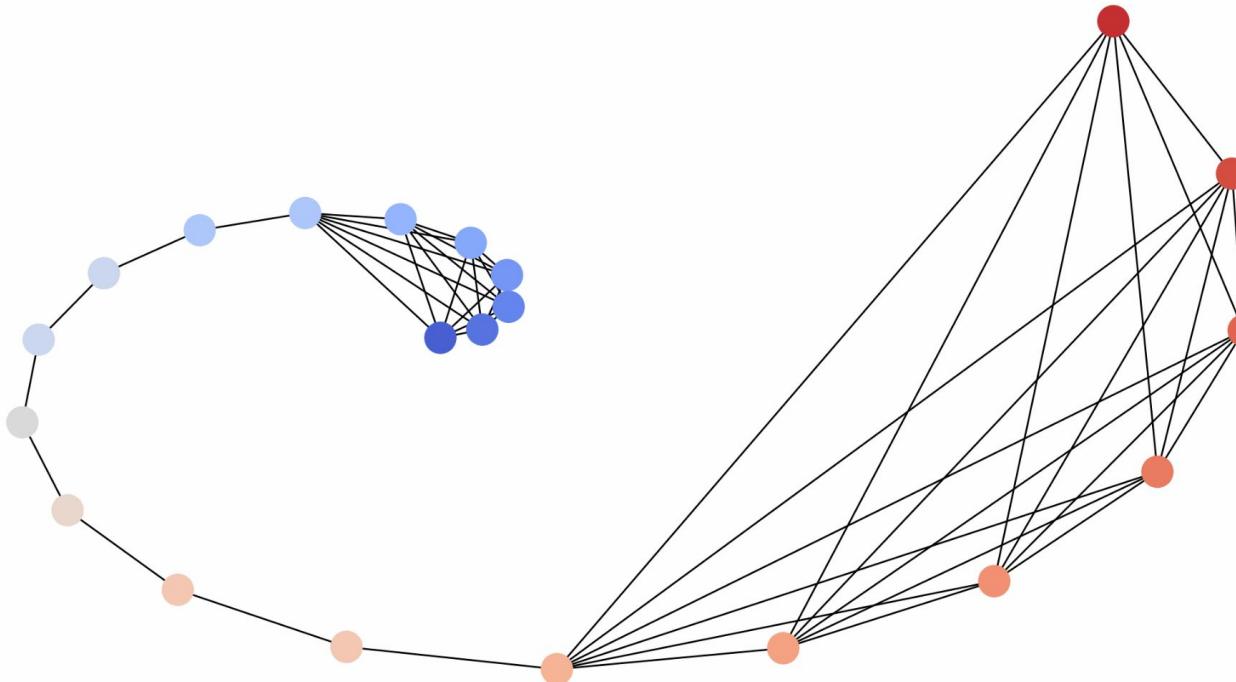

birth-death

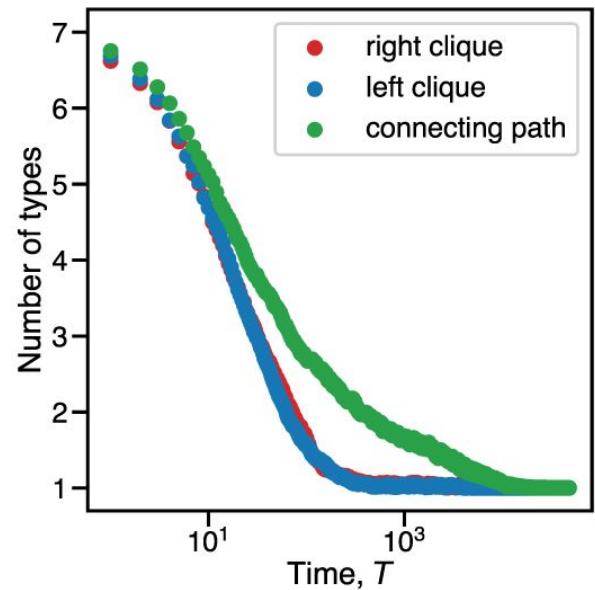

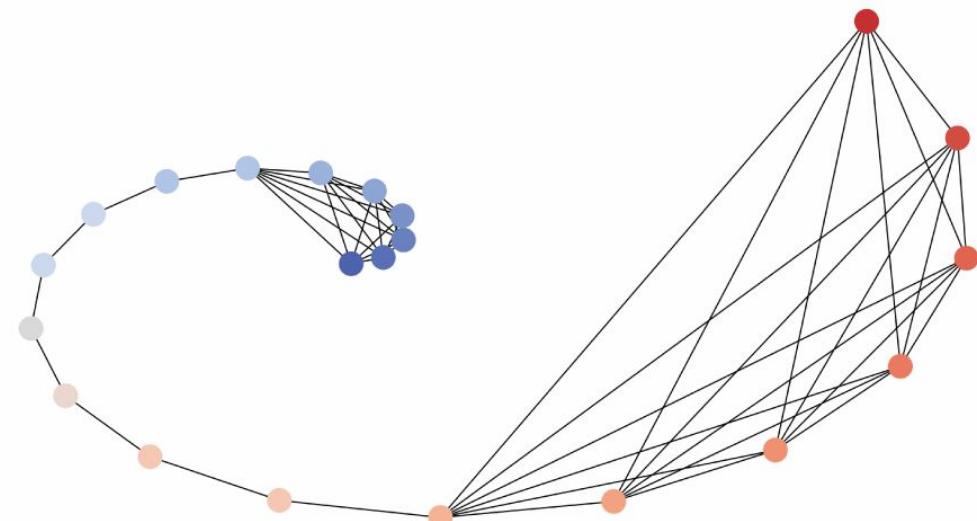

death-birth

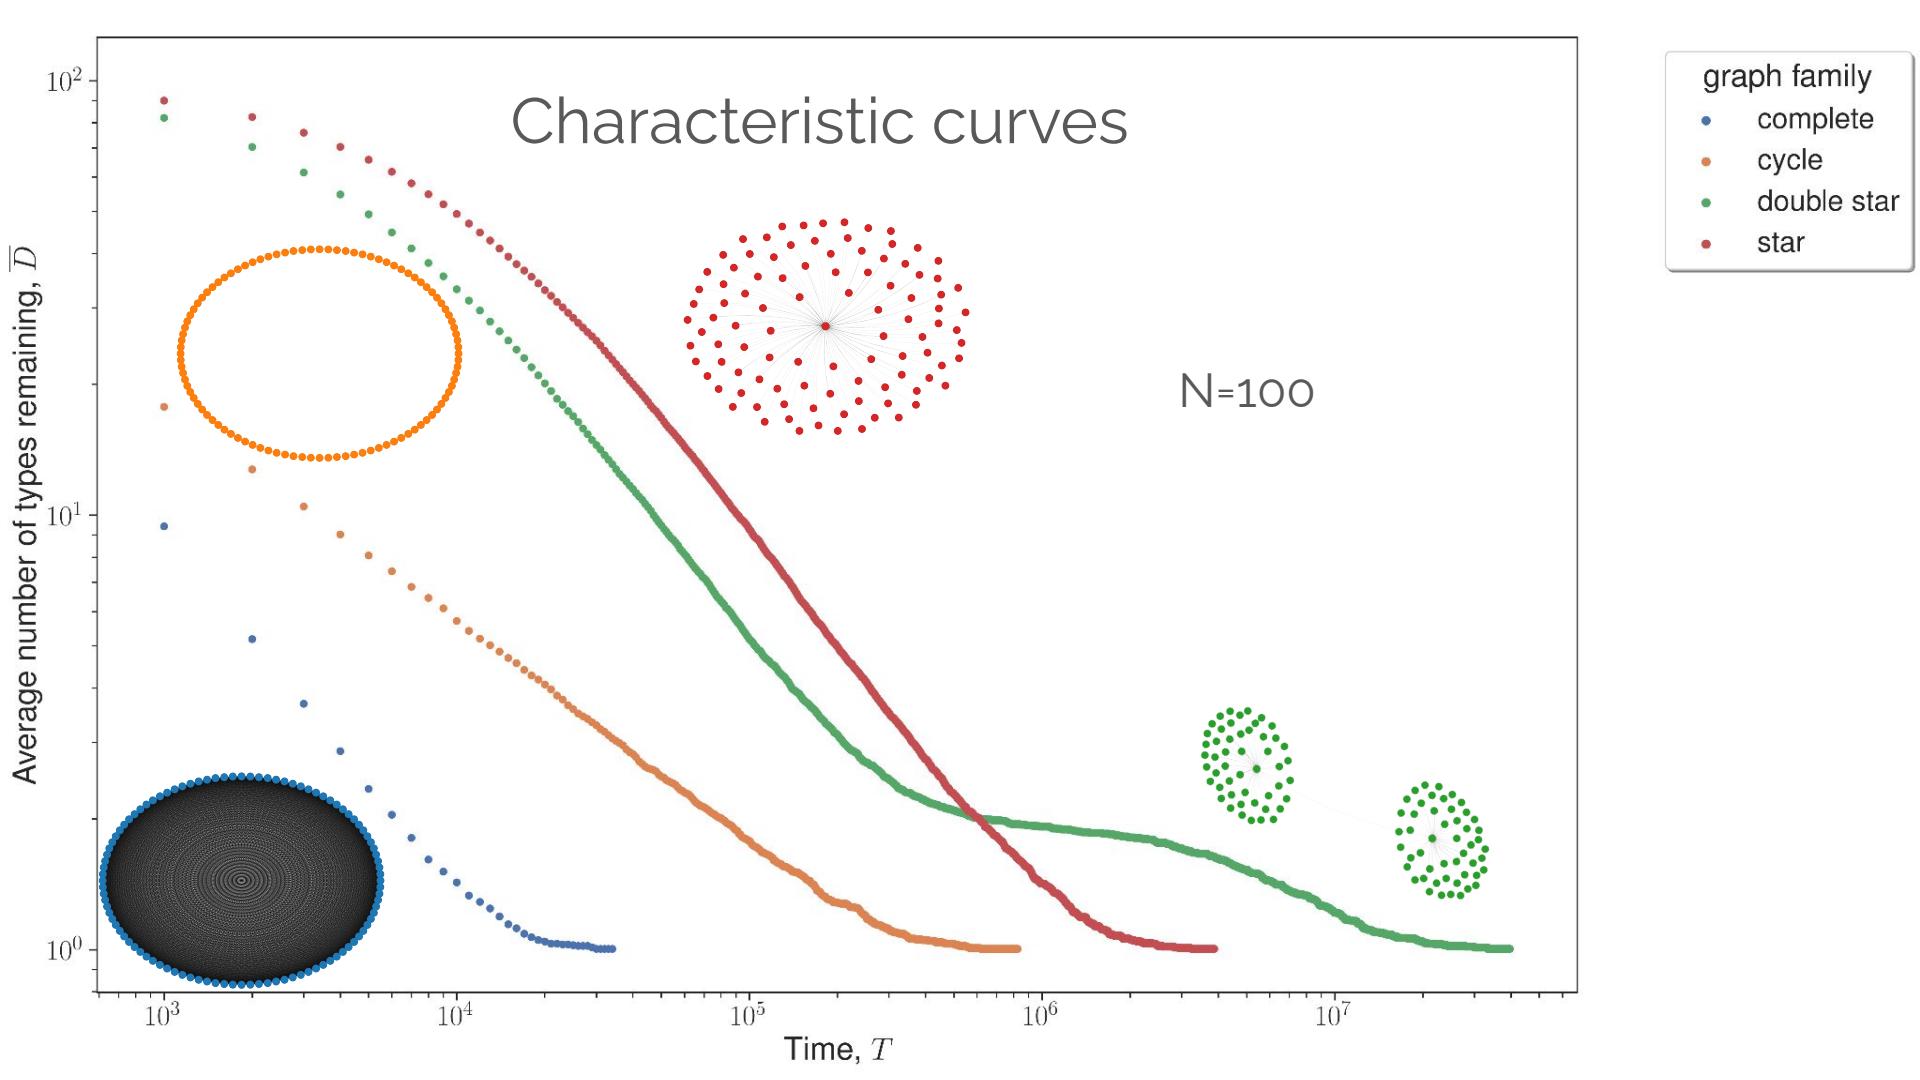

Barbell simulation

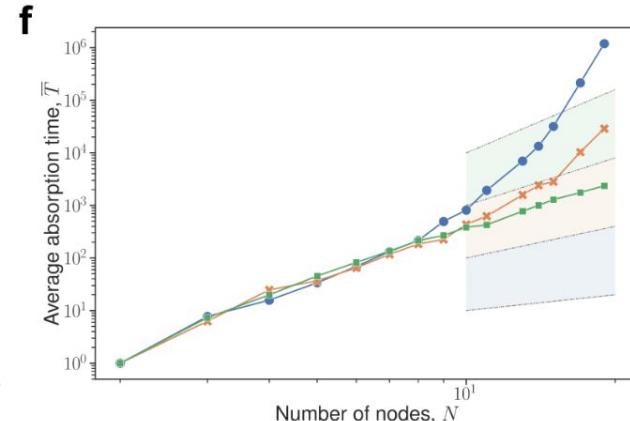

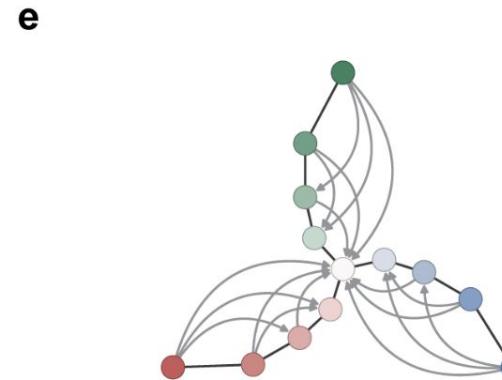

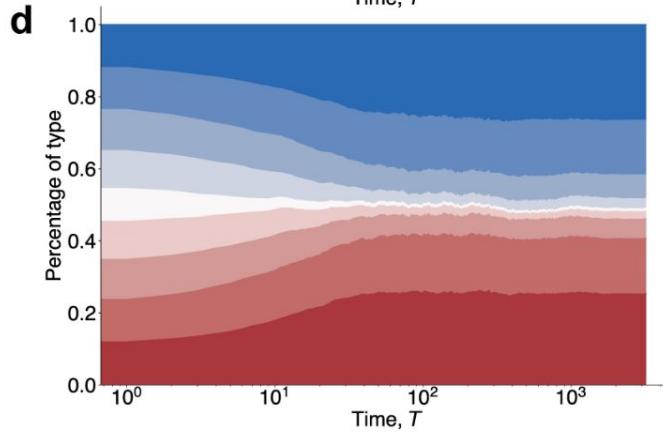

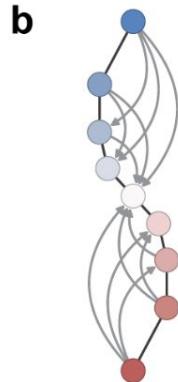

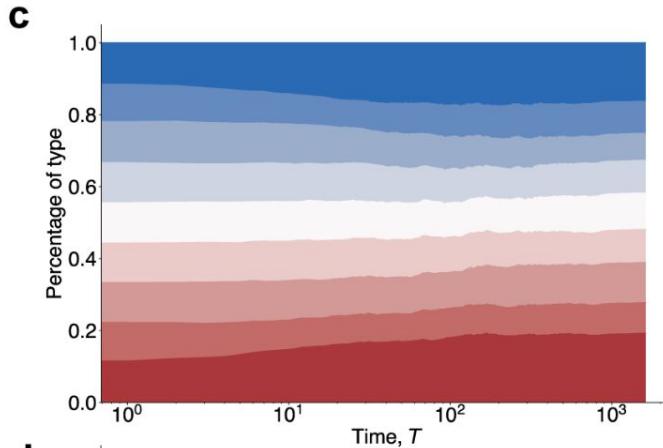

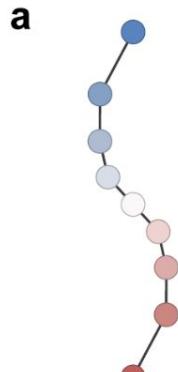

Barbell, N=21, death-birth

Contracting star, N=9

graph family

- contracting path
- contracting star
- path

level lines

- N
- N^2
- N^3
- N^4
